

Primary station

Stenbro, Gotland

New transformer station for GEAB, Gotlands Energi, at Stenbro on the island of Gotland.

GEAB, Gotlands Energi, owned by Vattenfall and Region Gotland, continues to invest in electricity distribution on the Swedish island of Gotland. At Stenbro on Gotland Harju Elektek has constructed a 70–10 kV transformer station.

Technical description

- Outdoor station, 70–10 kV
- CombiFLEX 10 kV primary station and SteelFLEX 10 kV substation
- Front SNC, 10 kV
- Control cabinet and VS distribution board
- Control cabinet, 70–10 kV
- SEBvision Event Log, 70–10 kV
- SEBvision Mimic, 70–10 kV
- SEBvision Metering display, 70–10 kV
- SEBvision Monitoring system, 70–10 kV

Medium voltage switchgear, SNC 10 kV.

Control cabinet and local distribution board.
